

VELVET plus Liquid handsoap with antibacterial agent & Provitamin B5

Velvet plus

Product description

Frequent hand washing helps prevent the spread of bacteria that cause infections. VELVET plus liquid hand soap combines hygienic cleansing and protection for the whole family, thanks to its formula with antibacterial agent, which acts as a daily shield against germs. It is enriched with softening agents, provitamin B5, and natural aloe vera juice that care for and respect the skin's balance, offering a wonderful feeling of softness and complete hygienic protection.

Dermatologically tested.
